

## 2.54mm Flat Flex Jumper Cable

### Female to Female

### PRODUCT DETAILS

The Flex Connection range of Flat Flex Jumper Cables are manufactured with Flexible Flat Cables (FFCs) produced by laminating bare copper conductors between 2 layers of tough, flexible flame retardant UL VW-1 rated polyester insulators. We terminate either end of the Jumper Cable with connectors from leading manufacturers such as Memcon, Tyco, Nicomatic and others. Flex Connection Jumpers provide high reliability and retention compared to traditional FFCs used with ZIF/LIF products with low contact resistance and high current options while maintaining a high level of flexibility.

### FEATURES

- Highly Flexible
- Light Weight
- Extremely Thin
- Quality Design
- Suitable to Fold

### APPLICATIONS

- |                      |                  |
|----------------------|------------------|
| Domestic Appliance   | IT Equipment     |
| Consumer Electronics | Office Equipment |
| Automotive Industry  | Robotics         |
| Medical Applications | Industrial       |
| Telecommunications   |                  |

### CONTACT AND HOUSING OPTIONS

High Force Female Contact

Low Force Female Contact

Full or Selective Gold Plating

Short Male Solder Tab

Polarised and Locking Housing

## ELECTRICAL AND MECHANICAL PROPERTIES

Flat Cable Material	Flat Copper Conductors laminated between 2 layers of White Polyester Insulation
Housing Style	MHF Standard Housing
Housing Material	Thermoplastic with Glass Fibre UL94 VO Rated
Contact Style	MHFFC106T Hi Flex Contact
Contact Material	0.20 mm thick Phosphor Bronze
Pitch	2.54mm
Number of Conductors	2 to 26 ways as standard
Conductor Size	1.57mm (width) x 0.076mm thick bare copper
Conductor Rating	3A AC / Conductor
Operating Voltage	300V RMS
Dielectric Strength	Over 1000 M $\Omega$ /M @2000VDC (20 deg C)
Resistance	<0.2 $\Omega$ /M

## OTHER OPTIONS

FOLDING

SHIELDING

LABELING

SLEEVEING

## PART NUMBERING BREAKDOWN
